===== SICEST Review 2 =====

\*\*\* Overall evaluation: Please comment the author what the strong and weak aspects of the paper are and please indicate any changes should be made to the paper if accepted.

1. There are some grammatical error, English need improvement in term of grammar.
2. Follow the IOP Format correctly
3. Avoid empty space i.e. in pages 4 and 7
4. Figures need improvement in term of resolution.
5. Conclusion part is only based on the summary of result. Provide conclusion remark based on the objective and expected result.
6. Need to update the references. Please provide at least 60% of the recent references (5 years late).

7. The result and discussion part is only presentation of results. Please elaborate more the result and expand the discussion. Authors have failed to provide discussion based on the theory and fundamental science. There is no comparison of results with results from the literature.

\*\*\* Abstract: Please rate the abstract of the paper Very good (4)

\*\*\* Introduction: Please rate the introduction of the paper Very good (4)
