Era Era Purwanto:

Thank you for submitting your manuscript entitled "Chattering Reduction on Low-Speed Indirect Field Oriented Control (IFOC) Induction Motor Using Second Order Sliding Mode Control (SOSMC)" to our journal International Review of Automatic Control (IREACO).

With the online journal management system that we are using, you will be able to track its progress through the editorial process by logging in to the journal web site:

Manuscript URL:

[https://www.praiseworthyprize.org/jsm/index.php?journal=ireaco&page=author&op=submission&path\[\]=23474](https://www.praiseworthyprize.org/jsm/index.php?journal=ireaco&page=author&op=submission&path[]=23474)

Username:

and clicking on My Journals->Active submissions.

With this submission the review process starts.

According to the review procedures, your proposal will be send to the Editor-in-Chief that, after evaluated the publication suitability of the paper, will indicate three reviewers for a full evaluation.

Dear dr. Era Era Purwanto:

In order to evaluate your paper ID 23474 entitled "Chattering Reduction on Low-Speed Indirect Field Oriented Control (IFOC) Induction Motor Using Second Order Sliding Mode Control (SOSMC)", it is requested the action listed below.

After that, please resubmit your paper for a second round of review.

Sincerely,
Dr. Srinivasan Alavandar, Editor-in-Chief of International Review of Automatic Control (IREACO)
seenu.phd@gmail.com

Reviewer Responses:

- English grammar and style should be carefully revised in every part of the manuscript.
- At the beginning of the paper, before the Introduction section, a Nomenclature section, not numbered, should be added with a list, in alphabetic order, of all the used distinct symbols/acronyms and their meaning.
- Acronyms should be avoided in the title and abstract and however you should refer to them only after they have been defined: put their full explanation in the Nomenclature section.
- At the end of the Introduction add a paragraph on how the rest of the paper is organized and developed, typically a summary on the rest.
- The References list is poor. Some other scientific contribution published in the time frame 2020-to date in more notable journals are requested. The following titles are suggested:
 - o Shaija, P., Daniel, A., Parameter Tuning of Sliding Mode Speed Controller of Induction Motor Drive Using Teaching-Learning Based Optimization Algorithm, (2022) International Review of Automatic Control (IREACO), 15 (1), pp. 28-37. doi:<https://doi.org/10.15866/ireaco.v15i1.21953>
 - o Makhad, M., Zazi, K., Zazi, M., Loulijat, A., Smooth Super Twisting Sliding Mode Control for Permanent Magnet Synchronous Generator Based Wind Energy Conversion System, (2020) International Journal on Energy Conversion (IRECON), 8 (5), pp. 171-180. doi:<https://doi.org/10.15866/irecon.v8i5.19362>
 - o Traoré, B., Doumiati, M., Olivier, J., Morel, C., Adaptive Power Sharing Algorithm Combined with Robust Control for a Multi-Source Electric Vehicle: Experimental Validation, (2022) International Review of Electrical Engineering (IREE), 17 (1), pp. 39-53. doi:<https://doi.org/10.15866/iree.v17i1.21269>
 - o Dbaghi, Y., Farhat, S., Mediouni, M., Essakhi, H., Comparative Study Between Back-Stepping Control and ANN-Sliding Mode Control of DFIG-Based Wind Turbine System, (2021) International Review on Modelling and Simulations (IREMOS), 14 (4), pp. 261-271. doi:<https://doi.org/10.15866/iremos.v14i4.19376>
- The review section should be more expanded based on the proposed references list.
- In the Conclusion paragraph the Authors could propose further improvements to be set for their proposal for a future development.
- Please place your figures/tables/equations objects with “inline wrapping” text style, as depicted in the template of the journal.

- A more effective discussion on the results proposed by the authors should be provided.
- A graph with a step change in the set point value should be provided (see figures 10, 11).

For any questions don't hesitate to contact us by means of the on-line submission system (Notify Editor button).

Dear dr. Era Era Purwanto,

Manuscript ID 23474 entitled “Chattering Reduction on Low-Speed Indirect Field Oriented Control (IFOC) Induction Motor Using Second Order Sliding Mode Control (SOSMC)” which you submitted to our Journal “International Review of Automatic Control (IREACO)” has been reviewed. The comments of the reviewer(s) are included at the bottom of this email.

The reviewer(s) have recommended a MAJOR REVISION.

This is an opportunity for you to respond to their major concerns and to incorporate improvements in the paper according to their suggestions. It is also an opportunity for you to add new results.

We normally only permit one major revision before an accept or reject decision is made. So please take the concerns of the reviewers seriously.

Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript within two weeks from the date of this email.

If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

You should revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the coloured text in red.

Once the revised manuscript is prepared, you can upload it and submit it through your on-line submission system.

In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

Once again, thank you for submitting your manuscript to our Journal and I look forward to receiving your revision.

Sincerely,

Dr. Srinivasan Alavandar, Editor-in-Chief of International Review of Automatic Control (IREACO)
