14	Rosa Eliviani, S.Kom., M.T.,	0310089801	Muh Farhan Adiyasa Pratama	Polytechnic Institute of Porto
15	Dwi Diana Wazaumi, S.Tr.Kom., M.T.,	0304069702	Sulthin Syamil Bassam	University of Information Technology and Management, Rzeszow

Surat Penugasan ini berlaku terhitung sejak tanggal ditetapkan surat ini dengan ketentuan apabila dikemudian hari terdapat kesalahan/kekeliruan akan diadakan perbaikan sebagaimana mestinya.

Demikian Surat Tugas ini diberikan agar dapat dilaksanakan dengan penuh tanggung jawab serta setelah menyelesaikan tugas ini mohon untuk digunakan sebagaimana mestinya.

Ditetapkan di : Bekasi

Tanggal : 08 September 2024

 

**Dipl.-Ing. Henri Paul, M.BA.**  
**Direktur Politeknik Astra**

## Progress Report Form IISMA 2024

This progress report describes your experience, problems, challenges, and issues you may have in the first three months of your study abroad. This report will be used for administrative purposes at IISMA and DGHE. Please complete the form accordingly.

Report Period	Academic Year	Period
	2024/2025	First Quarter

### PART A

To be completed by the student

<b>Name</b>	: Hafidz Rafael Caesaryo
<b>Host University</b>	: National Pingtung University of Science and Technology
<b>Home University</b>	: Politeknik Astra
<b>Advisor (e.g., head of international office or other lecturers from your home university)</b>	: Barth. Hari Dwi Nugroho

1. Outline below your progress and achievements over the last 3 months. Indicate what milestones have been achieved.

Over the past three months during the IISMA Program at National Pingtung University of Science and Technology, I have achieved several key milestones. Academically, I've deepened my knowledge of mechanical and mechatronic applications in biology, with a focus on microfluidics and healthcare sensors, which has broadened my understanding of interdisciplinary technologies. This academic progress has aligned with my goals of exploring mechanical systems in biological applications. Additionally, I joined the PPI (Perhimpunan Pelajar Indonesia) community at NPUST, actively participating in events organized by both PPI and the campus. These activities allowed me to build connections with fellow international students and engage with the local culture. I've also adapted to Taiwanese social customs, particularly their emphasis on punctuality and respect for time. Overall, these achievements have contributed significantly to both my academic growth and cultural adaptability, marking important progress in my journey.

2. What is your plan for the rest of the program?

During the remainder of the IISMA Program, I plan to further deepen my academic understanding, especially focusing on advanced applications of microfluidics and sensors in healthcare. I aim to explore potential research opportunities and collaborate with professors and peers to gain hands-on experience in this field. In addition, I will stay actively involved in the PPI community and campus events to strengthen relationships with local and international students, enhancing my cultural and leadership skills. I also plan and maintain to contribute positively to the reputation of the IISMA program, especially representing IISMA awardees at NPUST, by fostering strong bonds and mutual support among fellow awardees. My goal is to ensure that we continue to make a positive impact as a cohesive and caring group while maximizing academic and personal development throughout the rest of the program.

3. What kind of extracurricular activities are you participating?

Currently, I haven't officially joined any extracurricular activities yet, as I'm still exploring options that align with both my personal interests and my academic schedule. It's important for me to find an activity that complements my daily routine and planned events without compromising my academic progress. However, I've recently developed an interest in joining the running club at NPUST, as I believe it would be a great way to stay active, maintain balance, and connect with others while ensuring it fits well with my academic responsibilities.

4. Have you identified any health and safety issues during the past 3 months?

No

5. Are there any issues that IISMA and DGHE should be aware of?

No

**Through the submission of this document, I hereby affirm that the attached document is valid and free from any falsifications.**

Date: October 12, 2024

<b>PART B</b>
To be completed by the International Office of the Home Institution

1. Are you satisfied with the progress of your student?

2. Are there any issues that IISMA and DGHE should be aware of

3. Any other comments/suggestions:

Find your extracurriculars immediately because time is short, you can grow if join extracurricular for improve your self.
